

THE CITY OF

GROVETOWN

The Mayor's Corner

AUGUST 2023

THE CITY NEWS

We held several events this summer, the biggest of which was our annual Summer Jam event. Thousands descended upon Liberty Park to have some fun in the sun with live music, crafts, and special guests! All who attended had a wonderful time.

The 4th of July Drive-Thru BBQ was a success as well, as we fed approximately 3,000 members of the community. We're grateful to those who stopped by and to our staff who put on the event.

The Grovetown Police Dept. also got in on the fun this summer, with their annual week-long Summer Camp event. Between movies, puppet and reptile shows, and all the games played and snacks eaten, it's safe to say attendees had a blast. Our Police Dept. also hosted their annual National Night Out Back-to-School Bash. Thousands of supplies were given to the community as we helped prepare our City's schoolchildren as they head into the 2023-2024 school year. Thanks to all who attended and donated!

Earlier this month, we participated in #CityHallSelfieDay, celebrating the essential work of public service and pride in our community. We appreciate all who got involved, as well as our special celebrity guest who took photos with employees and citizens... Check out our Facebook page to find out who it was!

YOU CAN USE

The City of Grovetown continues to grow as we rise toward our future. The groundbreaking ceremony for the Municipal Court parking lot was held earlier this summer, and work has been moving along smoothly and according to plan since then.

Speaking of rising toward our future, the City was the recipient of two prestigious awards this summer: The Tyler Technologies Public Sector Excellence Award and the Georgia Municipal Association's City of Civility Award. We are proud to have received these accolades, which are now on display in the lobby at City Hall. They truly speak to our level of dedication to our citizens and our community.

With the extremely hot weather we're experiencing, we are holding our annual fan drive to assist citizens who need a way to beat the heat. Simply come up to the Help Desk at City Hall to inquire, or donate new or lightly used fans for those who need them. Limit one fan per citizen.

The City is also utilizing the Liberty Park Community Center as a cooling center during summer months. If you need somewhere to grab a cold drink and cool off, stop by during their hours of operation and they will happily assist.

We continue to hire for open positions with the City. Qualified applicants may apply online at cityofgrovetown.com/jobs. Please be sure to apply for a specific position from those available, and be sure to fill out your application completely before submitting it to our HR Director. Please limit one position per application. Full job descriptions available upon request.
